It appears that the formation of the image depends principally rence would have been received in on the ink, although it was discovered that the latent image may be produced the people hiss and denounce the offiby nearly one-half of the inks in current use, out of thirteen different varieties of ink seven having produced a positive result. It further appeared that the formation of the image depended upon the presence of acids in the colored mixture, the gum and the sugar having no part in the phenomena, although the paper on which the writing has been placed gives different results. The best results were obtained with paper well sized and polished, for the reason that the contact in this case is closer, thus favoring the production of the image.

The duration of the contact is not hour, while in order to reveal the imsorted to. The first method is to apappear sometimes very clear and comand counties to bear; neither is it plete. The other method does not make right that they should bear the entire any change in the paper to be examined, and consists in placing in contact with the latter a sheet of nitrate of silver photographic paper for several hours six to twelve the two sheets being exposed to the light. The photographic paper will completely blacken, but the latent image will stand forth very distinctly. It should be stated that the leaf on which a latent image exists loses this image by contact with water or alcohol.-Paris l'Illustration.

> The Great Russian Lake. in the Oriental situation, is a somewhat remarkable body of water. Its name is a corruption of the Turkish Bel-kul, "rich lake"-the reference being, presumably to the valuable fish with which it swarms.

> Lake Balkal is the third largest body of water in Asia. The Caspian and Aral seas are the two larger. Both are sait, however, while Baikal is fresh. It is, therefore, the largest fresh water lake in Asia, and the sixth in size in the world, the five Great Lakes of North America each exceeding it in area. Its waters occupy a remarkable depression in the vast plateau of Central Asia. The level of its waters is 1,300 feet above the sea, while the bottom of the lake is, in some places, more than 3,000 feet below the sea level. Its depth is, therefore, 4,500 feet in the deepest parts.

> The lake is 830 miles long, and from nine and a quarter to forty miles wide. Its waters are a deep blue, and remarkably clear. There are a number of islands in it; the largest Olkhon, is forty-two miles long. There are numerous hot springs on the shores, and earthquake vibrations are frequent. The annual value of its salmon, sturgeon and other fisheries is about one hundred and sixty thousand dollars. Fresh water seals are abundant, and they are caught for their fur. It receives the waters of several streams. the main one being the Salnega River, eight hundred miles long. The upper Angara River, also of considerable size, enters its northeastern end. Its outlet is the Lower Angara, on which

> Irkutsk is situated. The reason why the Siberian Raiload was not built around the southern end of the lake is that the solid rock of the mountains reaches to the water's edge, and the task would be herculean. Events in the East may compel it neverthelesa.

Betting on a Sure Thing. The magistrate was German, but the prisoner at the bar wasn't. "You been here before, already,"

said the magistrate. "Sure I has," said the prisoner. "How many times arrested?" asked

the judge. "Aw! I been pinched more times than I got fingers an' toes," said Mr. Plugugly, "an' I was always discharged.'

The magistrate took a long look at the prisoner. Then, leaning toward him in a confidential way, he said: "I'll bet you \$20 you're not discharged now."

"Put ten on that for me. It's a cinch," said the court policeman who stood near by.-New York Sun.

The trial of Prendergast, murderer of Carter H. Harrison, to determine his sanity was commenced in Chicago.

THEWEEKLY Chronic Sores HISTORIAN Eating Ulcers A Constant Drain Eating Ulcers Upon the System.

Nothing is a source of so much trouble as an old sore or ulcer, particularly when located upon the lower extremities where the circular is weak and sluggish. A gangrenous eating ulcer upon the leg is a frightful eight, and as the poison burrows deeper and deeper into the tissues beneath and the sore continues to spread, one can almost see the flesh melting away and feel the strength going out with the sick-ening discharges. Great running sores and deep offensive ulcers often develop from a simple boil, swollen gland, bruise or pimple, and are a threatening danger always, because while all such sores are not cancerous, a great many are, and this should make you suspicious of all chronic, slow-healing ulcers and sores, particularly if cancer runs in your family. Face sores are common and cause the greatest annoy-Wheeling, W. Va., May 28, 1908.

ance because they are so persistent and unsightly Some years ago while at work, I fell over a truck persistent and unsightly and detract so much from one's personal appearance. Middle aged and old people and those whose blood is contaminated and tainted with the germs and poison of malaria or some previous sickness, are the chief seried occurred.

Bome years are while at work, I fell over a truck and severely injured both of my shins. My blood became poisoned as a result, and the doctor teld mal would have running sores for life, and the medicine sores of the seried is our aging report I left off their treatment and resorted to the use of S. S. S. Its affects were prompt and gratifying. It took only a short while for the medicine to cure up the sores, and I am not dead as the doctor intimated I would be, maither have the sorres ever broken out again, and seems 13 years have elapsed since what I have described occurred.

Care Schmulbach Brewing Co. sufferers from chronic sores and ulcers. While the blood remains in an unhealthy polluted condition, and the sore will continue to grow and spread in spite of washes and salves, for the sore is the outward sign of some constitutional disorder, a bad condition of the blood and system, which local remedies cannot cure. A blood purifier and tonic is what you need-something to cleanse the blood,

quicken the circulation and invigorate the constitution, and S. S. S.

is just such a remedy. It counteracts and removes from the blood all the impurities and poisons, and gradually builds up the entire system; and when the blood has been purified the healingprocess begins and the ulcer or sore is soon entirely gone. S. S. S. contains no mineral or poisonous drugs of any description, but is guaranteed

purely vegetable, a blood purifier and tonic combined and a safe and permanent cure for chronic sores and ulcers. If you have a slow-healing sore of any kind, external or internal, write us about it, and our physicians will advise you without charge. Book on "The Blood and Its Diseases " free.
